12V DC 5.5L ECO-Plus Submersible Shower Pump Kit

This submersible pump fits into a 20L (5 Gal.) water Jerry Can

- The pump is German engineered quality pump that works when required.
- Perfectly partnered with Kariba and most other makes of water heaters.
- Power Source - 12V DC from a cigarette lighter socket of a vehicle.
- Rated flow at 2 M height is 5.5L (1.45 Gal.) p/min.
- Rated operating pressure – 0.8 bar (11.5 psi).
- The pump kit is good to operate up to 60C (140F) supplied complete with:
 1. 5.5L (1.45 Gal.) submersible pump complete packed in a tool box.
 2. Twin core 5 meter (16.5 Ft.) power cord connected to the pump with an in-line splash proof on/off power switch and cigarette lighter plug which glows red to indicate that the source of power is connected.
 3. 1.5M (4.9 Ft.) Reinforced water hose for connection to Shower Head.
 4. 1.2M (3.9 Ft.) Thick wall clear water hose fixed to pump.
 5. Push/Pull “Garden” type plug & play hose quick connectors.
 6. Velcro cable/hose tie & Water On/Off flow restrictor valve.
- This pump is made for pumping water only. **NB:** Not for any other liquids.
